REGISTER NO AND NMID : auttvu352hc24bca023

DEPARTMENT : *Bachelor of Computer Application*

COLLEGE : COLLEGE AND UNIVERSITY : *Holy Cross Arts And Science College For Women /Thiruvalluvar University*

Project Title

Digital Portfolio

AGENDA

1. Problem Statement
2. Project Overview
3. End Users
4. Tools and Technologies
5. Portfolio Design and Layout
6. Futures and Functionality
7. Results and Screenshots
8. Conclusion
9. GitHub Link

PROBLEM STATEMENT

- In today's competitive world, students need an effective way to present their skills and achievements. Traditional resumes or static and limited, making it difficult for recruiters and institutions to evaluate a student's full potential. A digital portfolio system is required to provide an interactive, easy –to – access, and professional representation of a students profile.

PROJECT OVERVIEW

- The student portfolio project is a web - based application that allows students to create and manage their personal portfolios. It enables them to display their:

- Academic information.

- Technical and soft skills.

- Projects and certifications.

- Achievements and extracurricular activities.

WHO ARE THE END USERS?

- Student - To create and manage their portfolios.

- Teachers / Monitor - To review student progress and achievements.

- Recruiters / Companies - To evaluate student profiles for internships or jobs.

TOOLS AND TECHNOLOGIES

- Frontend: HTML, CSS, JavaScript, Bootstrap/React
- Backend (if any): PHP / Python (Flask / Django
- Database: MangoDB / MySQL
- Design Tools: Figma / Canva
- Version Control: Git & GitHub
- IDE : Visual Studio Code

PORTFOLIO DESIGN AND LAYOUT

- Home Page – Introduction, tagline, profile image

- About me – Personal details, career goals, education

- Projects – showcase with images description and links

- Login / Register Page - Student authentication

- Dashboard - Manage portfolio content

- Achievements Page - Certifications, extracurricular activities

FUTURES AND FUNCTIONALITY

- Student registration and login system
- Profile creation and editing
- Uploading academic details, skills, and certifications
- Adding project descriptions with links / screenshots
- Professional resume - style layout
- Easy sharing via unique portfolio link
- Admin control (optional) for monitoring

RESULTS AND SCREENSHOTS

1. **Developed professional digital portfolio to present skills, projects, and achievements effectively.**

2. **Increased career opportunities and personal branding through an engaging online presence.**

CONCLUSION

- **The Student Portfolio project provides an efficient and professional way for students to represent their skills and achievements. It not only helps students during job and internship applications but also builds their digital identity.**
